

CHILLIWACK · FOUR MONDAY NIGHTS

AI SECRET SAUCE

WITH PAUL PREIBISCH

The secret isn't the sauce. It's that there are only **five ingredients** — and nobody ever showed them to you.

INGREDIENTS

- 1** Get AI out of the chat box and into the apps you already use.
IN YOUR OWN WORDS — SQUARE, YOUR CALENDAR, YOUR INBOX
- 2** Try anything, break nothing. Every edit kept, roll back any time.
- 3** Uncover a host of free tools that do the job — AI installs them.
- 4** Build a real website or app, and put it online the same night.
- 5** Customize a team of real AI agents, just by describing them.
